"Once you start to use Appara, you will be able to complete many complicated transactions quickly and effectively. Combining it with e-signatures means I get documents turned around quicker. Previously, I had to create documents, save it as a PDF then send it to a client who will either sign or mail it back and then I had to place this in the binder etc. Now, it is all done within minutes." **RAVI PATEL ASSOCIATE LAWYER**

McCarter

Strosberg Sasso Sutts LLP

It's time to lay down the law with your paperwork.

management. Make your data work for you.

more accurate records with Appara's structured cloud-based database.

Say goodbye to duplicate files. Find data faster and maintain

make management easy. Automatically-updated minute books you can share externally.

Forget the manila folders. No more sorting through filing cabinets or stuffing binders to the brim with paper. Appara

organizes your minute books for you – and even keeps them upto-date with automated entries as you complete matters.

Workflow automation

for complex transactions. Plan and execute transactions in less time.

Save your mental energy for work that matters. Whether it's purchases and sales, Section 85's, or other multi-step, multientity transactions, our automated workflows tackle the tedious

work for you (e.g., email, esign, efile, infile collaboration), so you can do the high-value legal work you love.

document automation. Draft corporate documents in minutes, not hours.

No more headaches. No more triple-checking for mistakes. Appara's advanced legal AI drafts all your documents (e.g., index,

engagement letters, precedents, etc...) for you. Plus

automatically update the document packages as new or different information is received!
